

BSL Builder's Series Liquid Line Filter Driers

Economical system protection for air conditioning applications

The builder's series liquid line filter driers incorporate the same compacted bead design, flow capacity and micron filtration as the EK series but in a smaller diameter shell.

Protect systems from solid particles with 20 micron filtration

Remove moisture and acid by utilizing the full surface area of desiccant beads

Install with ease with solid copper connections

Specifications

- Compacted bead construction
- Corrosion resistant epoxy powder paint finish
- Maximum Working Pressure = 680 psig

Model	PCN	Description	Flow Capacity Tons*	Water Capacity Drops @ 125°F
			R-410A	
BSL 053S	066758	Economy Liquid Line Drier, 5 cu. in. 3/8" ODF	5.3	56
BSL 083S	066759	Economy Liquid Line Drier, 8 cu. in. 3/8" ODF	5.3	108
BSL 084S	066760	Economy Liquid Line Drier, 8 cu. in. 1/2" ODF	7.6	108
BSL 163S	066761	Economy Liquid Line Drier, 16 cu. in. 3/8" ODF	5.3	151
BSL 164S	066763	Economy Liquid Line Drier, 16 cu. in. 1/2" ODF	7.6	151

*Rating in accordance with AHRI standard 710
