

RDC+ Release Notes:

Version 2.1.0 Release date: July 23, 2015

- Now able to run in two modes: Standard and Advanced. Standard mode includes a very limited number of data points, but works with any REFCON version back to REFCON 5. Advanced mode includes the full data point set and works with newest REFCON 6 versions.
- Support for Motorola Workabout Pro 4.
- Layout adjustments.

Version 2.0.0 Release date: May 22, 2013

- First generally available release, replacing the old RDC Mk II.
- Introducing the Handheld Software Commander.
