Who Should Update

Copeland recommends that all customers upgrade their Site Supervisor Controllers and PCs running Site Manager to the latest version to take advantage of the latest fixes and enhancements listed above.

All customers who meet one or more of the requirements below are advised to upgrade to Site Supervisor 2.08F01:

Customers using any of the features listed in Table 1:

Site Manager and Connect+ Minimum Version Compatibility

Table 2: Site Manager and Connect+ Compatibility Matrix

Site Supervisor 2.08F01	
Site Manager Minimum Version	Connect+ Minimum Version
18.2.1	1.3.1

Site Manager and Connect+ Updates Required

Site Supervisor requires Site Manager 18.2.1 or greater, or Connect+ 1.3.1 or greater. It is recommended the latest version of Site Manager and Connect+ be installed for best practices. If communication with Site Manager or Connect+ is required, upgrade Site Manager or Connect+ to the latest version first, then update the Site Supervisor Controllers. Contact Copeland for more information about upgrading.
