

Track your shipment

Provide customers and employees direct access to track real-time critical shipments.

Designed with growers and producers in mind, the Track Your Shipment module provides quick and easy access to real-time in-transit, perishable shipment data. Our website widget can be easily embedded on the homepage of your website for easy customer access. Or, the widget can be placed on your internal intranet enabling employees to do quick order and quality tracking.

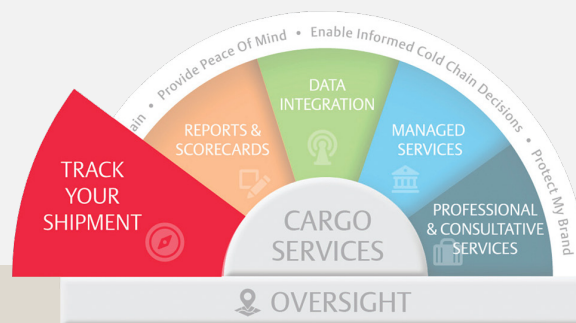

The interface allows users to simply input a GO Real-Time Tracker serial number to gain visibility to location and temperature data. Choose from five color options to customize the user experience to your website and brand standards.

Website Layout Example

Benefits

- No-cost and convenient method to track perishable shipments and obtain visibility to shipment and temperature data.
- Improve operational efficiency, enhance transparency, and promote food quality and safety.
- Match design to fit existing branding, customize the experience, and elevate your brand.
