

Copeland™ Scroll ZBW/ZFW Variable Speed Compressors for Refrigeration Solutions

COPELAND™

 **EMERSON™**

Copeland™ scroll ZBW/ZFW variable speed solutions

Emerson variable speed solutions were developed for our partners with specific requirements for variable capacity medium temperature and low temperature applications, such as convenient stores, supermarkets, process chilling and cold rooms.

The solution offering includes variable speed compressors, drives & controllers, as well as system components like EXVs, economizers, pressure transducers & temperature sensors tailored to the customer requirements.

With expertise of scroll compressor engineering and manufacturing combined with variable speed technology, Emerson provides a total integrated solution with value in matched and tuned drives, CoreSense diagnostics and vapor injection technology for a variety of Cold Chain applications.

Emerson variable speed solutions features

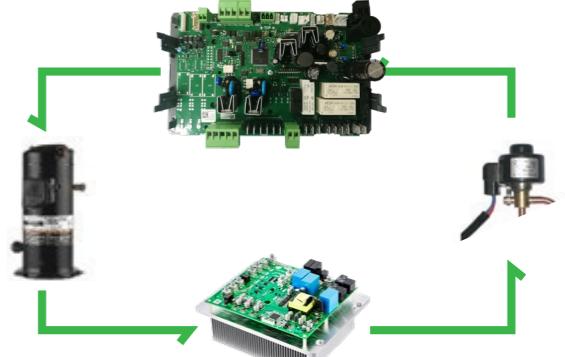

Emerson integrated solutions to meet customer needs

Customer pain points	Emerson solution
Need to coordinate with various compressor and electronics suppliers for system development	One-stop shop Capability to supply all core components in variable speed systems including compressors, drives, controllers, temperature sensors, valves etc.
Lack of adequate technical support	Dedicated integrated solutions team Expert Emerson engineering team provides specialized support for all refrigeration requirements
Long lead times for variable speed system development	Qualified solution with high reliability Fully integrated control logic, system protection and optimized parameters
Poor performance in low evaporating conditions	Refrigeration variable speed scroll ZBW for medium temperature applications ZFW for low temperature applications
Low efficiency at high pressure ratio conditions	Vapor injection technology Significantly improving efficiency, providing best in class lifecycle cost

Emerson integrated solutions team

Emerson is fully committed to developing innovative solutions for the HVACR industry and to help customers achieve their cold chain objectives. Emerson responds quickly to the market changes and listens attentively to the voice of customers. With Emerson, you can consider your cold chain challenges solved.

Value for customers

	Market-leading system performance
	Trusted Emerson brand with decades of cold chain solutions
	Helping customers respond quickly to market demands
	Higher unit reliability
	On-site monitoring continuously tracks real-time performance

Features and benefits

Variable speed advantage

Modulated capacity
high efficiency at part load

Low noise
operation

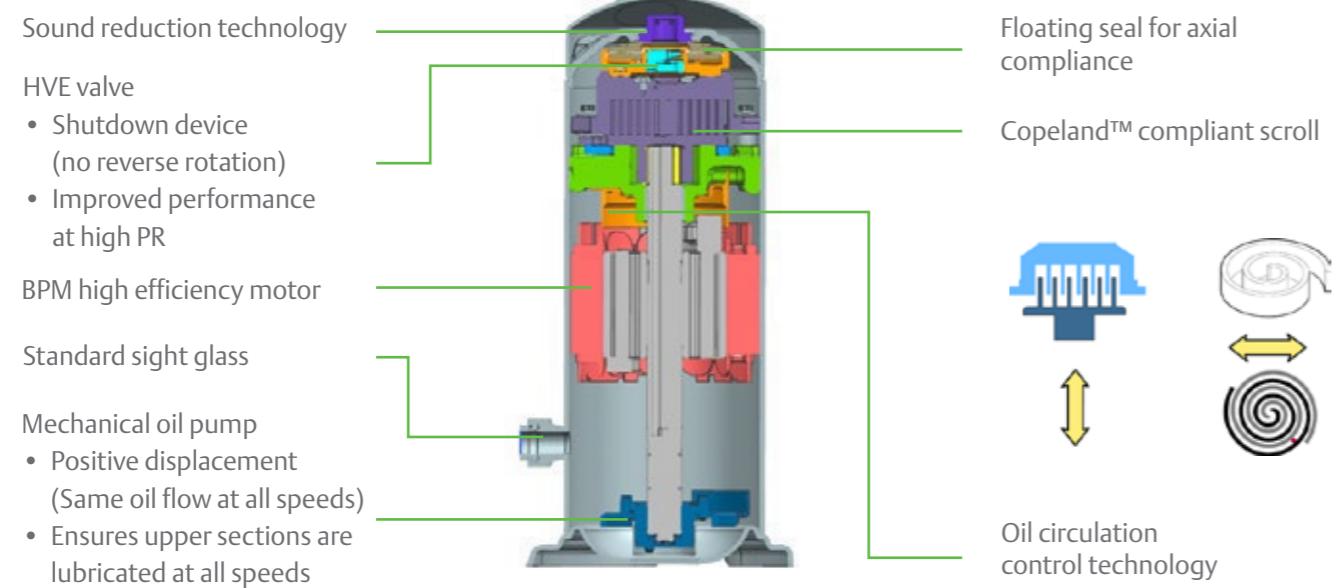

Accurate temperature
control for food safety

Wide input range
minimizes grid impact

ZBW/ZFW variable speed compressor
key design features

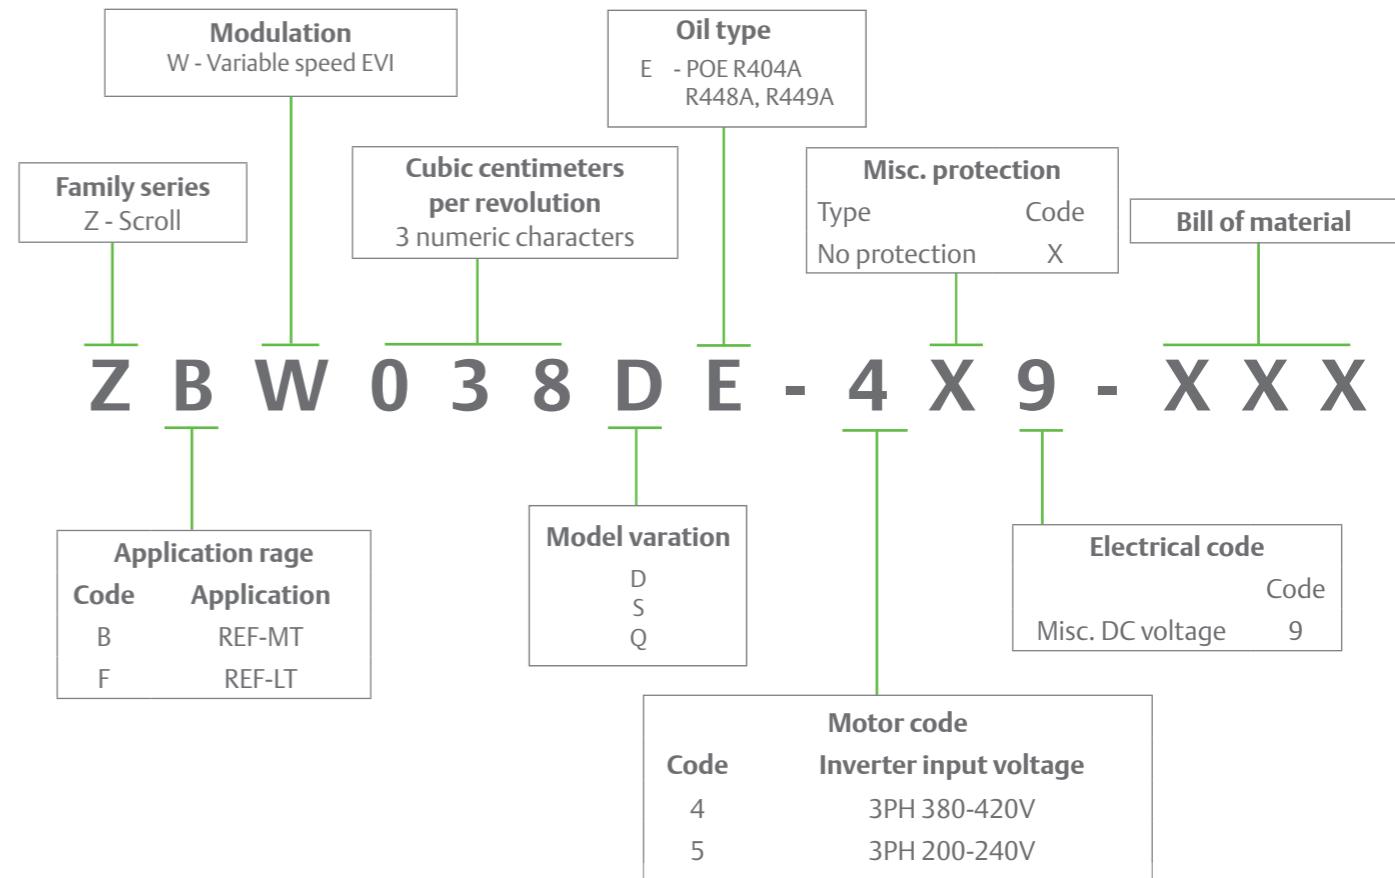

Drive

- Optimum combination of compressor and drive, delivering maximum efficiency
- Best in class built-in protection & control for reliable operation
- Meets system EN60335 standard without component UL/VDE
