

Multi-Function Thermometer

A better way to help monitor temperatures

How MFT helps your business:

Streamlined Process

Each line check becomes about 30 minutes faster and is easily performed by one person.

Labor Efficiency

User-friendly interface simplifies tasks and helps you focus employee time elsewhere.

Flexible Compatibility

Transmits data to a variety of food safety software apps via Bluetooth.

Digital Record-Keeping

Helps accurately and securely capture time, date, temperature, and who is collecting the data.
