

Sensi thermostats were built to meet your needs for comfort, control and convenience. You have a lot of choices when it comes to buying a thermostat, but only one combines 125 years of heating and cooling experience with the latest connected home technology to provide the perfect solution for your home.

Smart comfort, made easy.

Set, change and schedule your Sensi thermostat from across the room or across the country using the smart, intuitive mobile app.

Scheduled to save you money.

Reduce your HVAC energy costs using the flexible scheduling or geofencing feature so you never heat or cool an empty home.

Designed to work for you.

Rest assured that your home comfort is in your complete control with features like smart alerts and compatibility with popular smart home platforms.

We're here to help.

Visit sensicomfort.com/support for around-the-clock access to support articles and videos. Our highly-trained Sensi Support Team is available seven days a week.
